Tough offers a clarion call to parents who are seeking to unlock their child's true potential and ensure they really succeed. Revue de presse "I wish I could take this compact, powerful, clear-eyed, beautifully written book and put it in the hands of every parent, teacher and politician. At its core is a notion that is electrifying in its originality and its optimism: that character not cognition is central to success, and that character can be taught. How Children Succeed will change the way you think about children. But more than that: it will fill you with a sense of what could be." (Alex Kotlowitz, author of *There Are No Children Here*) "Every parent should read this book and every policymaker, too." (Charles Duhigg, author of *The Power of Habit*) "A timely and essential message a brilliantly readable account of the growing evidence that inner resources count more than any amount of extra teaching support or after-school programmes when it comes to overcoming education disadvantage" (Independent) "Absorbing and important."
